People Gathering in Moshi for the first day of the crusades.

It was a time of unbelievable power and deliverance. I arrived in Tanzania on my 36th trip to attack the many projects that are now in progress in the land we have been working now for over ten years. With me were my son Kirk and his dear wife Jennifer. They were advancing into a new frontier of mission work as they were going to stay until Oct 15th. More about that later.

A couple weeks before I left to go on Aug. 25th I sent instructions to Bro. Jonas to construct a stage in one of the open areas in Moshi and prepare for an open air crusade. My heart is being pulled more and more to do more than feed rice and deliver clothing, and build orphanages and churches, to the preaching of the Gospel. The true deliverance from their despair will come when their soul is set free from the bondage of sin and their bodies are healed from the many diseases that have them gripped! There is no powers like the powers of the Gospel!

When we arrived there was excitement in the air. The stage had been built and when we drove there on Thursday before the crusade was to begin in Friday the 27th I could feel something in the air. I knew God was going to meet us there. He certainly did!!

When the meeting started on Friday at 3:00 P.M. it looked as though not many would come, but with Gospel music playing loudly through the rented speakers and frequent announcements with the microphones, they began to gather from many directions! By Sunday we had a very large crowd and many, many great and miraculous things happened.

The lost were saved, the possessed were delivered, and the sick were healed! Let the pictures show you only a small part of what happened on those marvelous days!!

CRUSADES (continued)

Pastor Powers cannot fly a red, white and blue American flag so he bought fabric and wrapped the stage for the crusade

Sis. Jennifer Powers praying with one of the young people who came for salvation during the crusade. It was hard to keep track of how many people came for salvation and to know exactly how many were converted. But when they were lead in the sinner's prayer it was a large company of people who prayed each day.

Look at the beautiful smile on the face of this young woman carrying her child. She came for prayer and was possessed with a hacking cough that did not stop. She said she had been coughing like

that for over a year. The Lord spoke to me that she was possessed with a spirit of infirmity. I laid hands on her and rebuked the spirit. She literally spit up an uncomely white mass. It was not pretty but here she is the next day praising the Lord and said that she had not coughed since the moment she was delivered.

The crowds grew and the miracles were many and God did a great work in that park in Moshi. We are looking forward to more meetings in that region and many others.

Missionaries for Real

Bro. Kirk and Sis. Jennifer with a large group of the orphans

We have had a dream for a long time about having missionaries from America on the ground to help advance our many efforts in Tanzania, and now many others where doors are opening up. It has been a joy when a few times in the past some have gone, but it has seemed that it has been a very hard thing to establish on a permanent basis. But like in so many areas, in 'Gods' time things always seem to go in place.

At present and on the horizon are some of the most exciting things happening and developing.

I am thrilled to report that my own Son Kirk and dear Daughter-in-Law Jennifer are on the ground in Tanzania, living in one of the apartments we have built on the grounds of Safe Haven Orphanage.

We went together on Aug 25th and arrived on the 26th and without any time to rest started crusades on the 28th. Bro Kirk and Sis Jennifer both dropped their shoulder to the plow and never looked up. We immediately began to lay out work directives from hygiene for orphans to large construction projects from Gonja, to Mwica, to large

scale construction on the completion of the 15000 sq. ft orphanage building.

Since the cargo had not so long ago arrived, Sis. Jenn. went to work fitting the children with new clothes and completely organizing the goods that had arrived from America.

Many other projects are at their charge and they are proving to be great soldiers in a place that sometimes seems impossible to conquer

1) Resupplying the chicken population.

2) Finishing the second apartment for Bro. Mike Mcmillan and family, two young ladies from the Riverdale church, and Sis. Page Powers to arrive in October.

3) Keep construction project in Gonja going forward. (New Church)

4) Complete church in Mwica and fit and install pews shipped from America.
5) Renovate the Bible training center in Himo to open later this year.

6) Complete untold amount of details in new orphanage building.

7) Preach in and work to encourage the pastors in the churches we have built and many other doors that have opened. Preach at orphanage every Sunday afternoon.

8) Renovate the old orphanage building to be turned into day school.

There are many other projects more than can be numbered that are constantly in motion. To have these great brave people on the ground there is beyond value. They are going to stay until at least October and overlap the incoming group going to set up the school.

Pray for their safety and that Gods anointing will rest on them and Gods work will prosper at their hand!

Missionaries for Real (continued)

Bro. Kirk preaching while Bro. Jonas interprets to the children during a Sunday service at the Safe Haven.

We have moved a piano into the current kitchen area for services.

Bro. Kirk handing out rice at the end of the crusade meetings each day.

Sis. Jennifer washing clothes for the children at Safe Haven.

Bro. Kirk preaching in Himo with Bro. Elijah interpreting

Bro. Kirk making an air conditioner opening in the new orphanage apartment.

Bro. Kirk preaching in Gongja

Bro. Kirk and Bro. Jonas preparing to hand out rice and clothing in Gongja.

Bro. Jonas, Bro. Kirk and Bro. Powers inside of Pastor Sampson's new Mwica Church

The Educational Team from Riverdale, CA

Bro. Mike Mcmillan with his wife Jana and daughter Glenna. Sis. Tiffany Spencer and Sis. Melissa Epley standing in back.

Over three years ago we at that time had a beautiful Christian school operating on the grounds of Safe Haven Orphanage. Also at that time there was a very vile Muslim educational director over the Kilimanjaro region. The devil rose up in her and she came to the orphanage grounds and closed our school. It was a very bad day for myself, Bro. Steve Reynolds and Bro. Terry Meadows had our passports taken away and we were also taken into custody. God gave us a miracle and we were released but we have fought ever since to reopen our school. It is with great joy that I am able to announce to you that that is on the horizon! It is happening now!

The ungodly educational director lost her job and the new director is quite cooperative. The only stipulation is that we have had to have segregated buildings.

I am also very happy to announce that by the time most of you get this magazine the orphans will have been moved into the beautiful new orphanage complex and the old building will be in the process of being renovated so that it can be opened as a beautiful Christian school.

I am delighted to announce that the Riverdale, CA church, under the direction of our dear friend Pastor Charles Spencer and his wife Wilma, are overseeing the dispatch of some of their most productive and qualified school staff to go to Safe Haven Orphanage and setup our new Christian school. Bro. Mike and especially his wife Jana have many years of school administration at their school in Riverdale that has over 200 students. God could not have blessed us more. They left on the 4th

Of October with the rest of the above team to test and qualify the students at Safe Haven. They will be staying until December 10th. Quite a sacrifice for these people that are going but also for Bro. and Sis. Spencer and the entire staff at Riverdale. We are eternally grateful at Landmark World Missions to have such great people join us as partners in the work of God.

Bro. Mike will also be working on many other projects such as the renovation of the new Bible school and church construction as well as he and the team ministering in various churches and preaching to the orphans. They are just the right kind of people who are not afraid of work and the required labor in God's vineyard. We also hope that they are not afraid of lizards!

Victory In Church Construction !

Bro. Kirk at Pastor Sampson's new church in Mwica

New Church walls complete in Gonja

We have been laboring tirelessly on two church construction projects and are very excited to inform you that Pastor Sampson is in his new church and going forward with the Gospel in Mwica. The pictures here are not totally current, but they will give you some perception of the great progress we have made. We have shipped pews that will be modified and costume fit to the church in Mwica and believe me Pastor Sampson is very excited! He has worried Bro. Kirk every few days for their delivery from our warehouse at the orphanage grounds. We hope to have them there soon.

The church in Gonja now has the cement floor poured complete and they are starting on the manufacturing of the roof trusses. It is a wonderful thing to see a church going up right in the heart of a Muslim region. But look for yourself, it is happening! By Gods grace we will dedicate this building on our January trip. What an exciting time!!

Tractor delivering one of the many, many fill loads for the floor on the church

Inside floor in the Gonja church filled and ready for cement. The cement floor is now fully poured.

Into The Depths of Hunger and Horror

A pathetically poor family outside of their home

Tattered and hungry children. Two of thousands and thousands.

As we were traveling to Gonja deep, deep into the teeth of the worst part of Tanzania, Africa we decided to take a little detour and go into one of the many, many pitiful villages to visit the people first hand as they live. What we saw will stun even the strongest person and the pictures will never tell you what is actually in these regions.

If you are ever wondering why we are so persistent in shipping rice and food and feeding the hungry this may help you to understand. It would be impossible to ship enough to relieve the pain of all but we are doing our best as God provides, and you do your best, to help us with the finances that supply these needs. Let these few pictures talk to your heart. Don't glance at them, please look closely.

Inside of this family's home. A few bananas is all of the food that is present.

Pastor Powers, Sis. Jennifer and Bro. Jonas handing out rice in Gonja. This is a continuing flow of food to the hungry.

Miscellaneous Pictures

Brian, who was healed of aids, with a new orphan Emmanuel, who has Aids and needs a healing. Please pray for him.

Two new orphans, Emmanuel and Frank as they were being picked up by the road.

Workers installing finished ceiling in new orphanage

Sis. Jennifer holding one of the new chickens that will be raised and eventually used for dinner at the orphanage.

Bro. Kirk and Bro. Jonas laying ceramic tile in new office

Completed ceramic floor in new office

New Bible School and Training Center

It is with great anticipation that we work toward the goal of opening a Bible training center this year in Himo, Tanzania.

How this came about is quite amazing! I was standing in Gonja listening to a young man testify while standing in the back of our truck to a village that a short time ago was a Muslim Haven! His Bro. Yaseen had been raised from his death bed literally as we prayed for him and after his brother Yaseen had been converted this young man had kikewise given his heart to Christ.

Now he is in the back of the truck loudly proclaiming his conversion and openly challenging this village in the name that had redeemed him.

He told them that he was going to bring the name of christ against their Muslim lies and also against their Wich Doctors! As he said that God spoke to me that we needed a bible training center to train these young men to proclaim the word.

I almost screamed to God that I could not do it!! I just simply have more than I can do! But God knows, and when he speaks we have to listen!

The next morning while preaching in Himo, I mentioned this and after church a man walks up to me and made available a building in Himo that certainly will give us a start towards a goal that only God knows we will reach.

Main entrance to new Bible Training Center

Inside classroom area

Bro. Kirk performing some hands on renovation

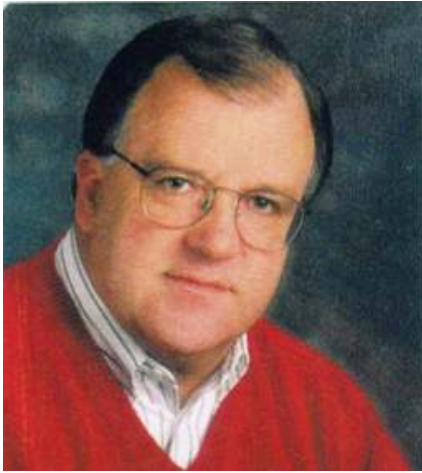

Rev. James R. Reynolds, Sr.

This man's heart and soul has been to train people in the word of God. His vision now will reach to Tanzania as the curriculum for our school was born at The Deliverance Bible Institute in Portland, ME.

A Special Message

Pastor Powers From My Heart

Many emotions arise as I approach this article or for that fact any article that has to deal with the projects that are tied to my heart by the call of God. Projects that are not an option but by God's order and will they have to be accomplished. There are so many factions that are involved and that have to go together to see projects like these develop and continue in prosperity for the glory of God. I will be 58 years old this year and I grew up in and around church. When I was a little boy I have memories of even visiting great meetings by great men such as Jack Koe and A. A. Allen and Oral Roberts. With few exceptions I watched and have further studied as the years have gone by the detours that they apparently faced that took them off track and in some cases they ended up distracted by things I probably will never know, but ultimately proved to be a disgrace to the name of God. Some in small part, some in large part, God knows my heart. That is probably my greatest fear. The problem is it takes a lot of searching and continual increase of communication with God and untold amounts of wisdom to keep upright and progress without making some

kind of an error. Being human we often think we have made the right decision when later we found out that we have not. All of us, without exception, have suffered this peril. I do not think that is a direct reflection necessarily on a person's position spiritually, it's just that sometimes the spirit is will but the flesh is weak.

I guess you wonder my point. My point is simply this - You feel the urging to go forward with the many projects that open up with unlimited possibilities such as in this case the building of churches, orphanages, the care of orphans, the support of pastors, support of staff, constant construction, Bible school, feeding the hungry, the distribution of Bibles, the purchase and support of vehicles with the multiple unspoken attachments that are directly or indirectly connected to these projects. I think that the crossroads that we come to is finding that perfect balance of asking for help and finances to support without that particular part becoming more of the vision than the vision itself. In this area I need your prayers that all of my doings will remain upright so that the vision of the project will be the larger picture and faith will bring the other things into existence. It would be wonderful if everyone who comes in contact with these works would simply be diligent and review them while on their knees and respond accordingly. Whether it be a church, or an individual or a company or whatever it may be. If so I believe that the massive increase in expenditure would be recognized in the hearts of all of you and you would step up and make yourself available to do what God tells you to do so that the final glory would go to God and never to a man.

I have been working with many of you for many years now and will say that in large part I am thrilled with the contin-

ued friendship that reflects the fact, I believe, that we have gained your respect as your support has continued. But I am going back to the point that we are facing massive increases as we occupy the new orphanage, increase the number of orphans, open Bible institutes, support more pastors, hire more staff and continue to feed many hungry people. Sometimes it is difficult to know the balance that is proper in presenting the need so that they are met in a way that will keep your confidence in what we are doing and not begin to see us as simply a fundraising institution.

The failures of past ministries I am determined not to make. So in your prayers please ask God to show me the right amount of presentation and the right amount of simple faith that I can believe that the project can be supported without any mention of the financial part. I will believe that if there is anything that bothers you in what we are doing, rather than forsake us, you would certainly let me know and give me a chance to correct it and continue on.

Thank you and I am depending on your prayers.

I Want to Help

I see the need in Tanzania and believe that you are doing your best in carrying out the call that God has given you. I want to contribute to the following areas and be a part of this work.

<u>Area of Support</u>	<u>Amount</u>	<u>One Time Gift</u>	<u>Recurring Monthly Support</u>
